

# HFR Company Profile

## Create the Resonant Networking

Networking should include not only providing connectivity tools, but also providing the necessary services. Networking, like nature, will be always staying next to us.

June 2023

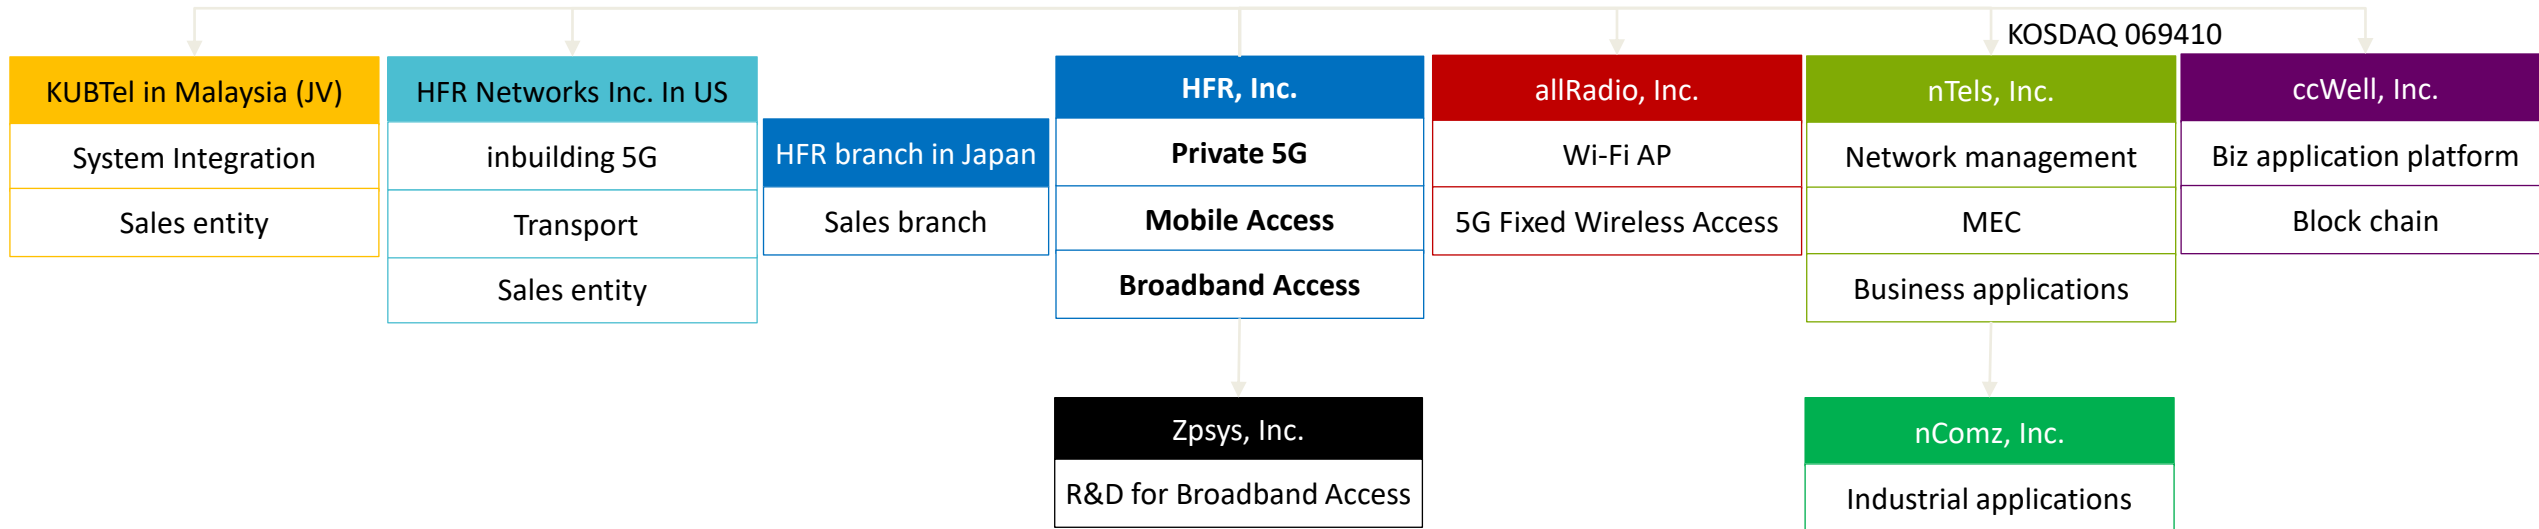

## Company Overview

설립일	2000.01.05	업종 정보통신장비 제조 및 제조 서비스	IPO	2018년 (KOSDAQ 230240)
인원	202명	사업영역 Mobile · Broadband Access, Private 5G & Services	홈페이지	<a href="http://www.hfrnet.com">http://www.hfrnet.com</a>

# HFR and its Affiliates

*“Many skills”, “Different views” but teaming up like “One company” based on empowering culture to enrich growth*

## VISION & BUSINESS STRATEGY

Networking은 연결 도구와 필요한 서비스를 제공하는 것을 의미하며, HFR은 인간 욕구 충족을 위해 공감 네트워킹을 창조하고자 합니다.

인간 욕구 충족을 위한 공감 네트워킹 창조

**'Create the Resonant Networking'**

사업전략

사업 자산 활용

성장전략

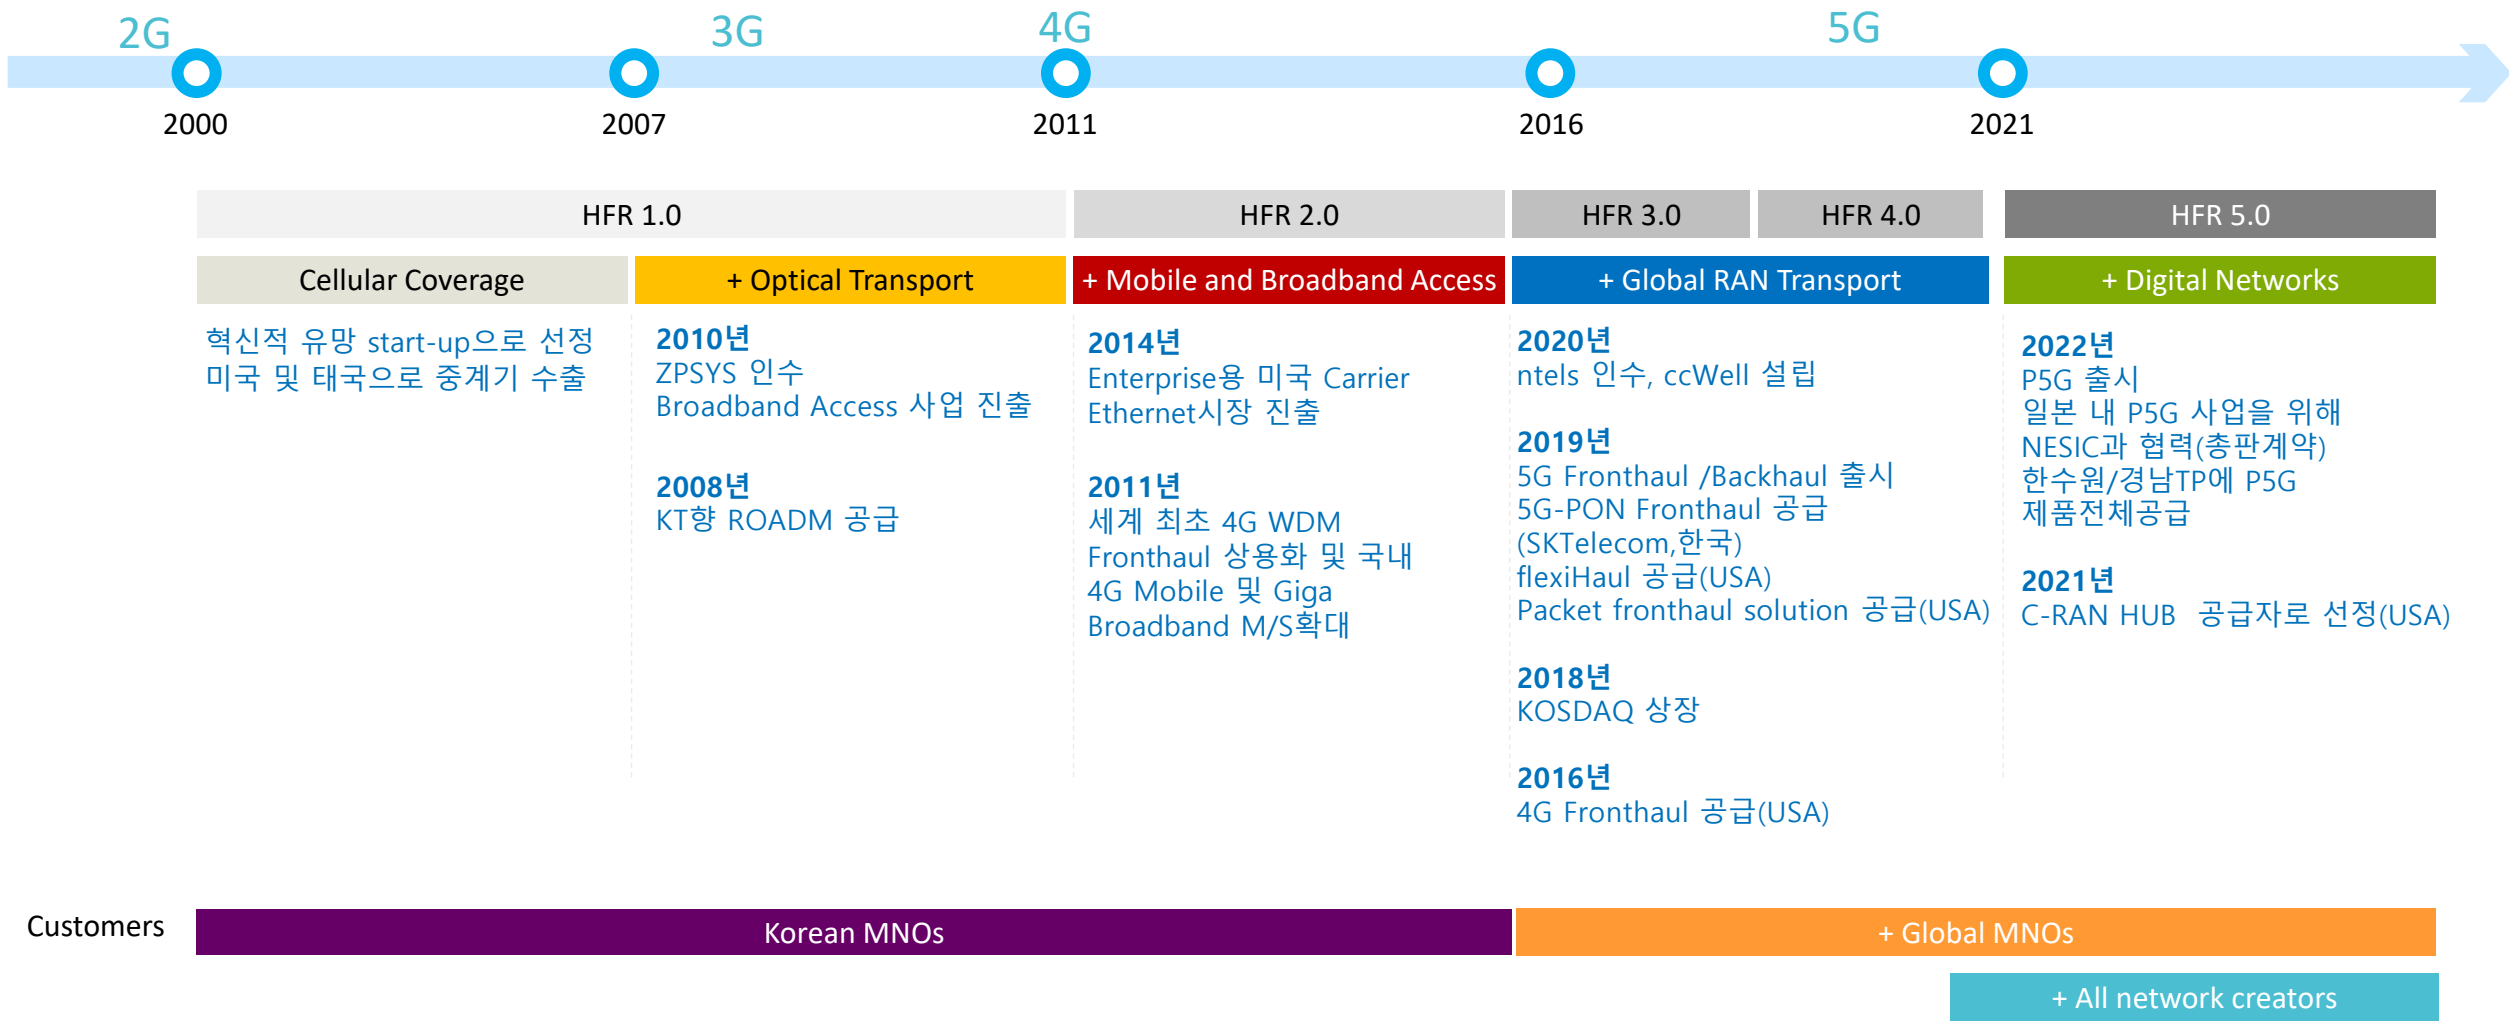

파트너와 탐험

조직전략

젊고 활기찬 조직

**BUSINESS STRATEGY**

# HISTORY

# ECOSYSTEM

HFR and its ecosystem are vital links in an innovation value chain, creating a family of companies empowered to achieve vital advancements through their combined technical synergies.

	Mobile Access	Broadband Access	Private 5G & Services
Customers	  	 	  
Partner Companies	 		 NEC ネットワークスアイ
Subsidiaries and affiliates	 ACTUS NETWORKS, INC.	 ZPSYS CO., LTD.	
Overseas Branch		 HFR JAPAN for Mobile Internet	

# Business Domain

## Mobile Access

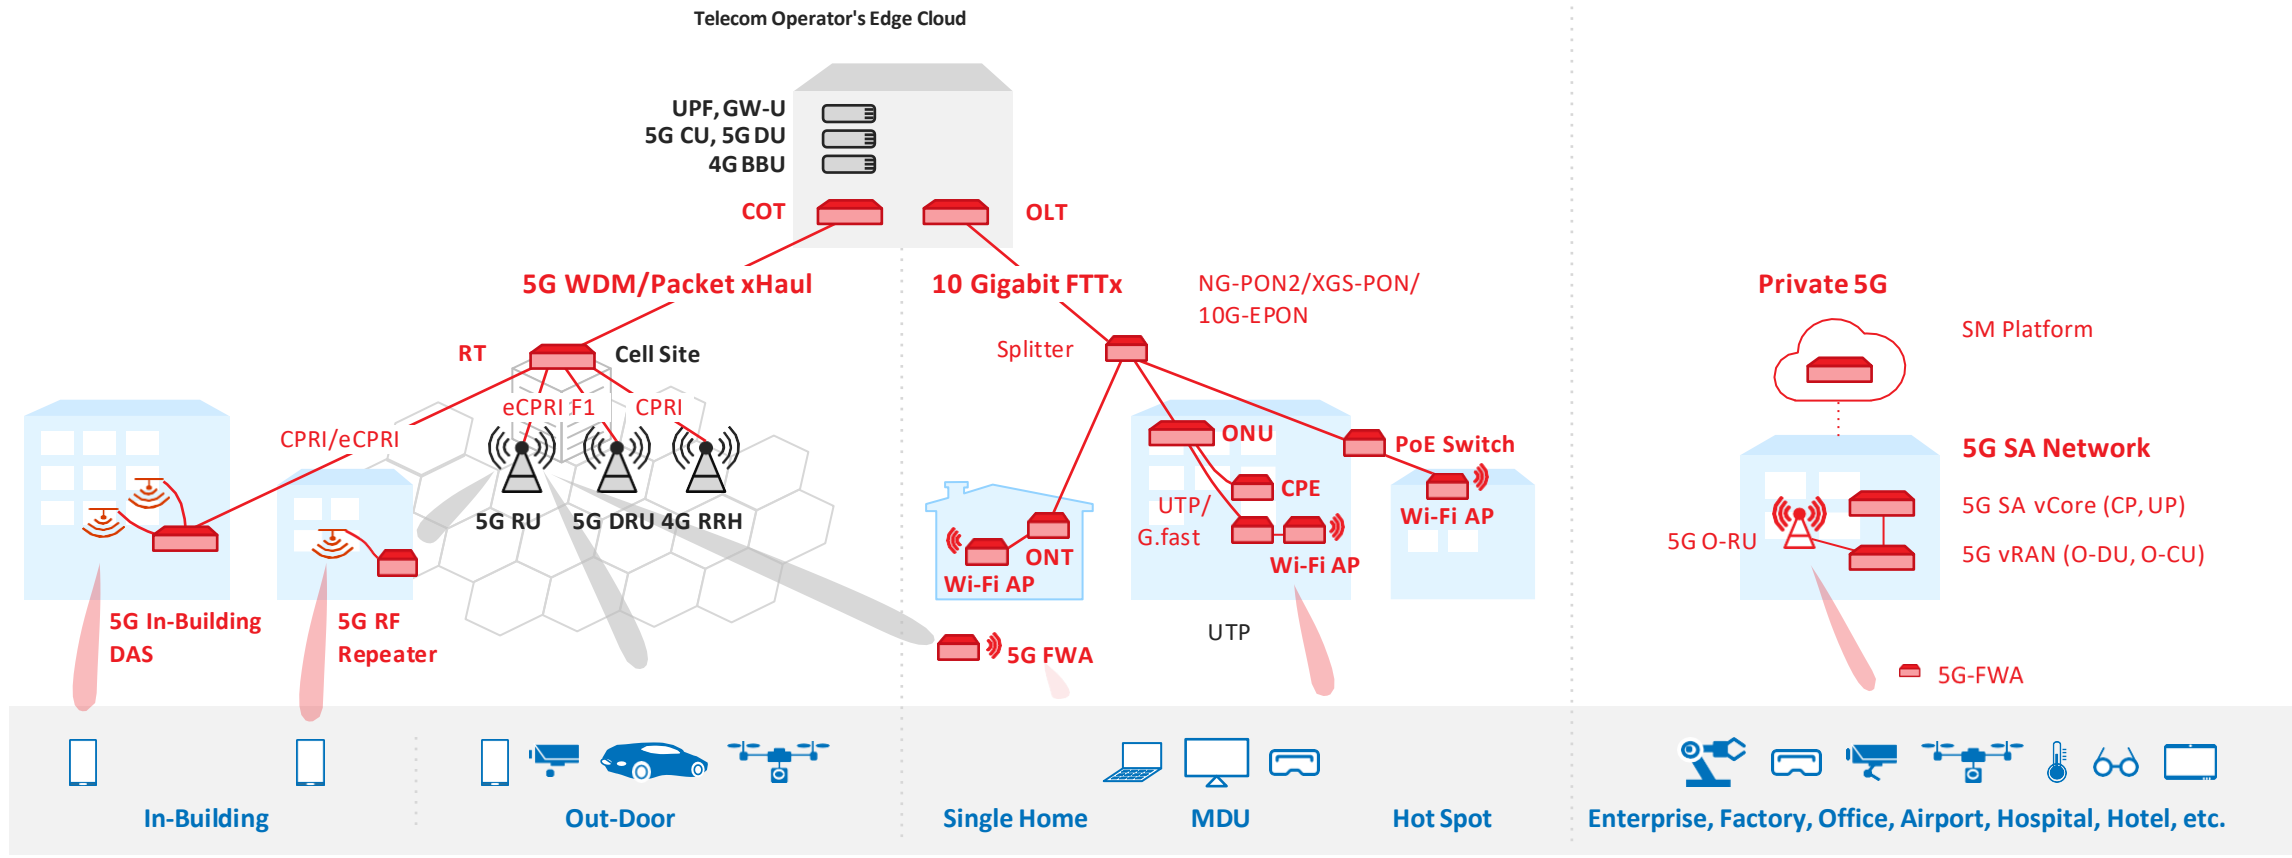

- 4G/5G xHaul (WDM & Packet RAN Transport)
- Indoor & Outdoor Cellular Radio Units

## Broadband Access

- 10G Gigabit Internet (FTTx)
- Wi-Fi Access Point & Controller

## Private 5G & Services

- 5G SA Network (5G vCore, vCU/DU, RU)
- 5G SM Platform

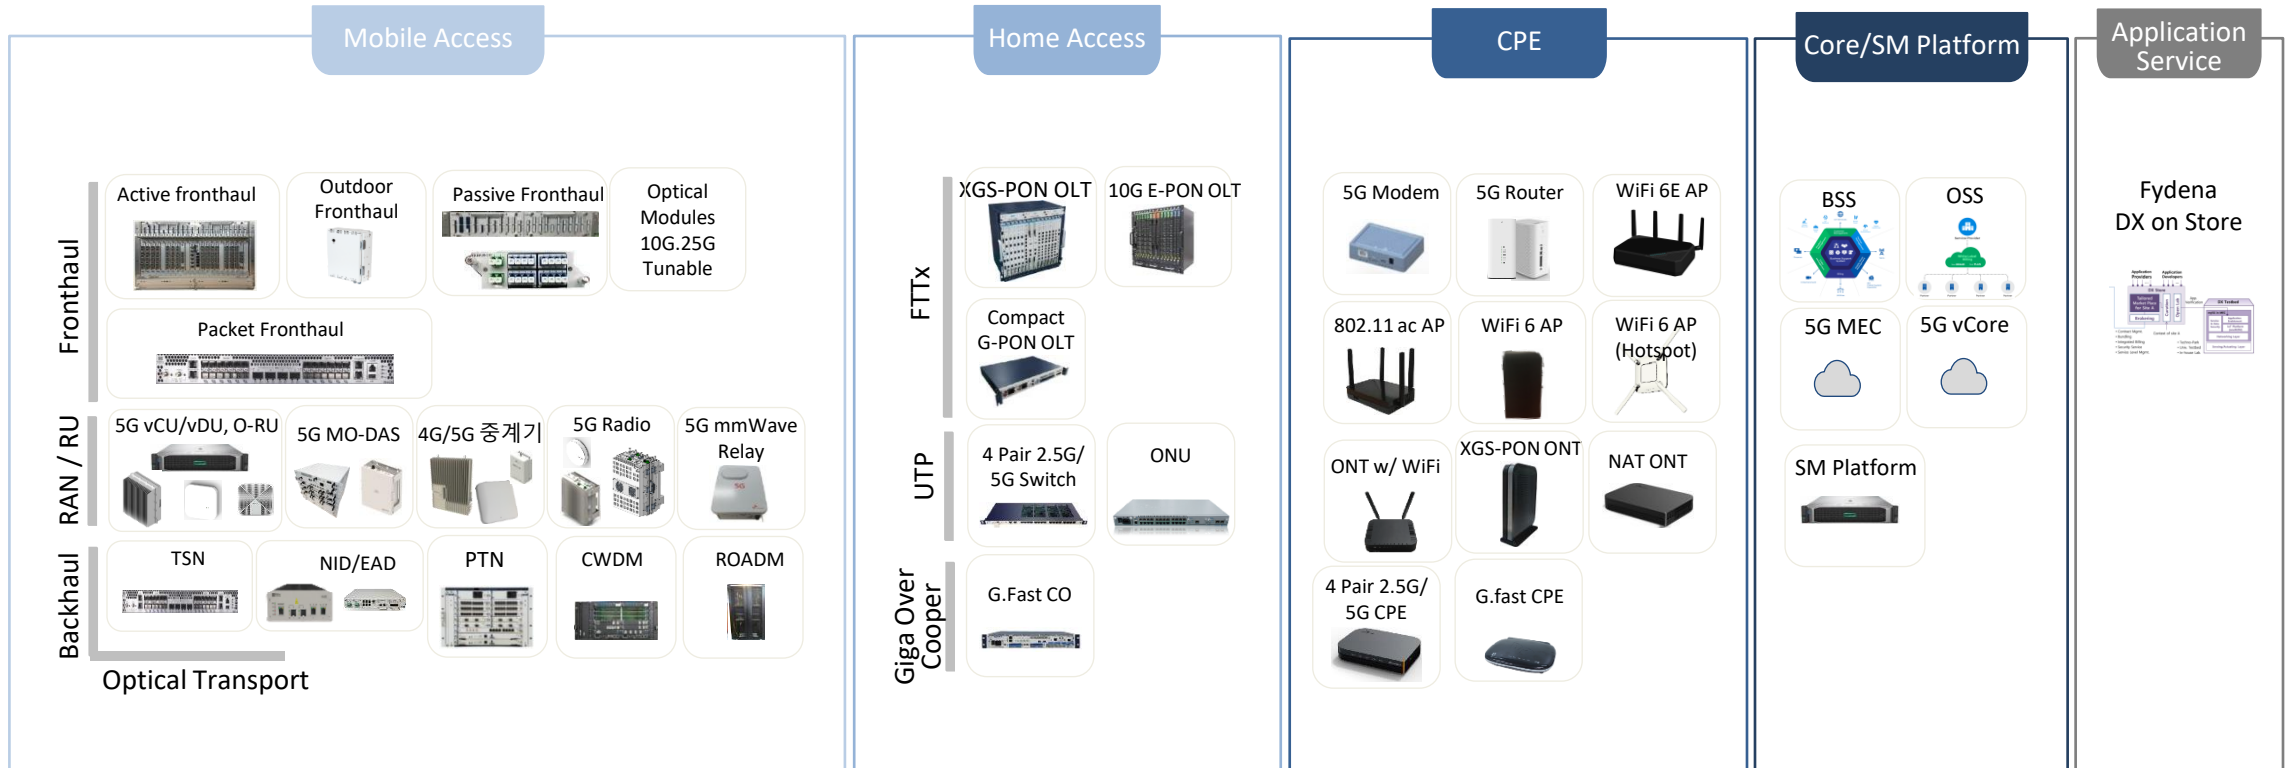

HFR

Connecting human and device to content, data and applications

HFR

# 제품 및 서비스 Portfolio

통신사업자와 공공 또는 기업 고객을 대상으로 유무선 및 모바일 네트워킹 장비 및 소프트웨어 솔루션을 개발, 제조, 공급 하고 있습니다. 또한, End-to-End Private 5G System 통합솔루션을 제공하고 있습니다.

## 성과 및 사업방향

5G Mobile Access 및 10G Broadband Access 시장에서의 리더십을 바탕으로,  
HFR의 향후 성장은 IoT 플랫폼에서 통합 관리 서비스를 제공하여 "Private 5G" 시장에서의 리더십을 확보하는 데 초점을 맞추고 있습니다

Private 5G  
& Services

### Future Digital Infrastructure Builder

Managed Service Provider  
(On-Site Private 5G Network & Services)

Provide Private 5G Total Solution

5G SA vCore | 5G vCU/DU, RU | SM Platform

Broadband  
Access

10G Gigabit Internet Commercialization in Korea  
Dominant Player in Korea's Wired Access G-PON Market  
The World's 1<sup>st</sup> 2-Pair Giga Ethernet Switch Commercialization

G-PON | 2-Pair Ethernet | 10G-EPON | XGS-PON

Mobile  
Access

Packet Fronthaul (RoE, TSN) Development  
The 1<sup>st</sup> Korean Company to Enter the US Fronthaul Market  
The World's 1<sup>st</sup> C-RAN Fronthaul Commercialization

In-Building Cellular | 4G WDM Fronthaul | 4G/5G WDM xHaul | 4G/5G Packet xHaul

## Recent Highlights

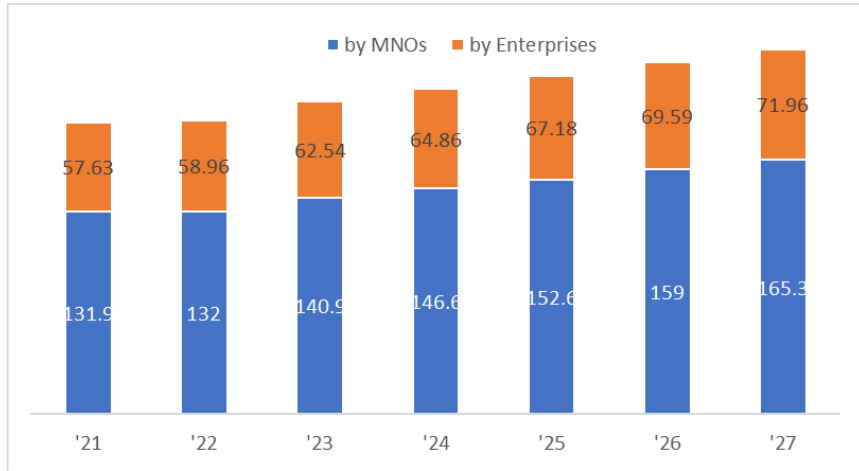

HFR boasts repeated success in introducing disruptive technologies.

Private 5G	Mobile Access	Broadband Access
일본 P5G 사업을 위한, NEC 자회사 NESIC과의 협력 및 투자	북미 C-band Fronthaul 단독 공급	가정용, 기업용 및 Hotspot용 WiFi 6/6E
국방 P5G 사업 수주	Packet Fronthaul 장비 공급	5G Fixed Wireless Access
한국수력원자력(한수원)에 P5G 제품전체공급	O-RAN을 기반으로 한 최초의 fronthaul Mux (SKT향)	2023년 WiFi 7 상용화 계획
경남 TP에 5G 시스템, WiFi 6 구축	LTE&5G 동시 서비스(기존 4G 스펙트럼의 RRH 이용)	초저지연 TSN(Time Sensitive Network) Switch 상용화

# HFR's Quality and Process Management System

## Resonant System Management

- Adopted HFR System Management in 2007
- Run Innovation/Improvement proposal program every month
- Regularly updated every year
- In conjunction with the **internal control system** in 2021

## Quality Certifications

- TL 9000 / ISO 9001
- ISO 140001
- NEBS Level 3
- Bronze from EcoVadis for sustainable growth

## Assessment by Customers

- Supplier process audited and proved by global vendors and telecom customers

## Strongly tied with Global Standard Bodies

HFR은 혁신적인 DNA를 가진 기술 중심 기업으로, CBRS, O-RAN, IEEE, SCTE ISBE 등 글로벌 표준 분야의 전문가들과 함께하고 있습니다.

### Global Standard Bodies

#### CBRS Alliance

Support the common interests of members, implementers and operators for the development, commercialization, and adoption of LTE solutions for the US 3.5 GHz Citizens Broadband Radio Service

#### O-RAN Alliance

Leading the industry towards open, interoperable interfaces and RAN virtualization

#### IEEE 1914.3

IEEE Standard for Radio over Ethernet Encapsulations and Mappings

#### SCTE ISBE

SCTE ISBE is the applied science leader for cable telecommunications

#### TIP

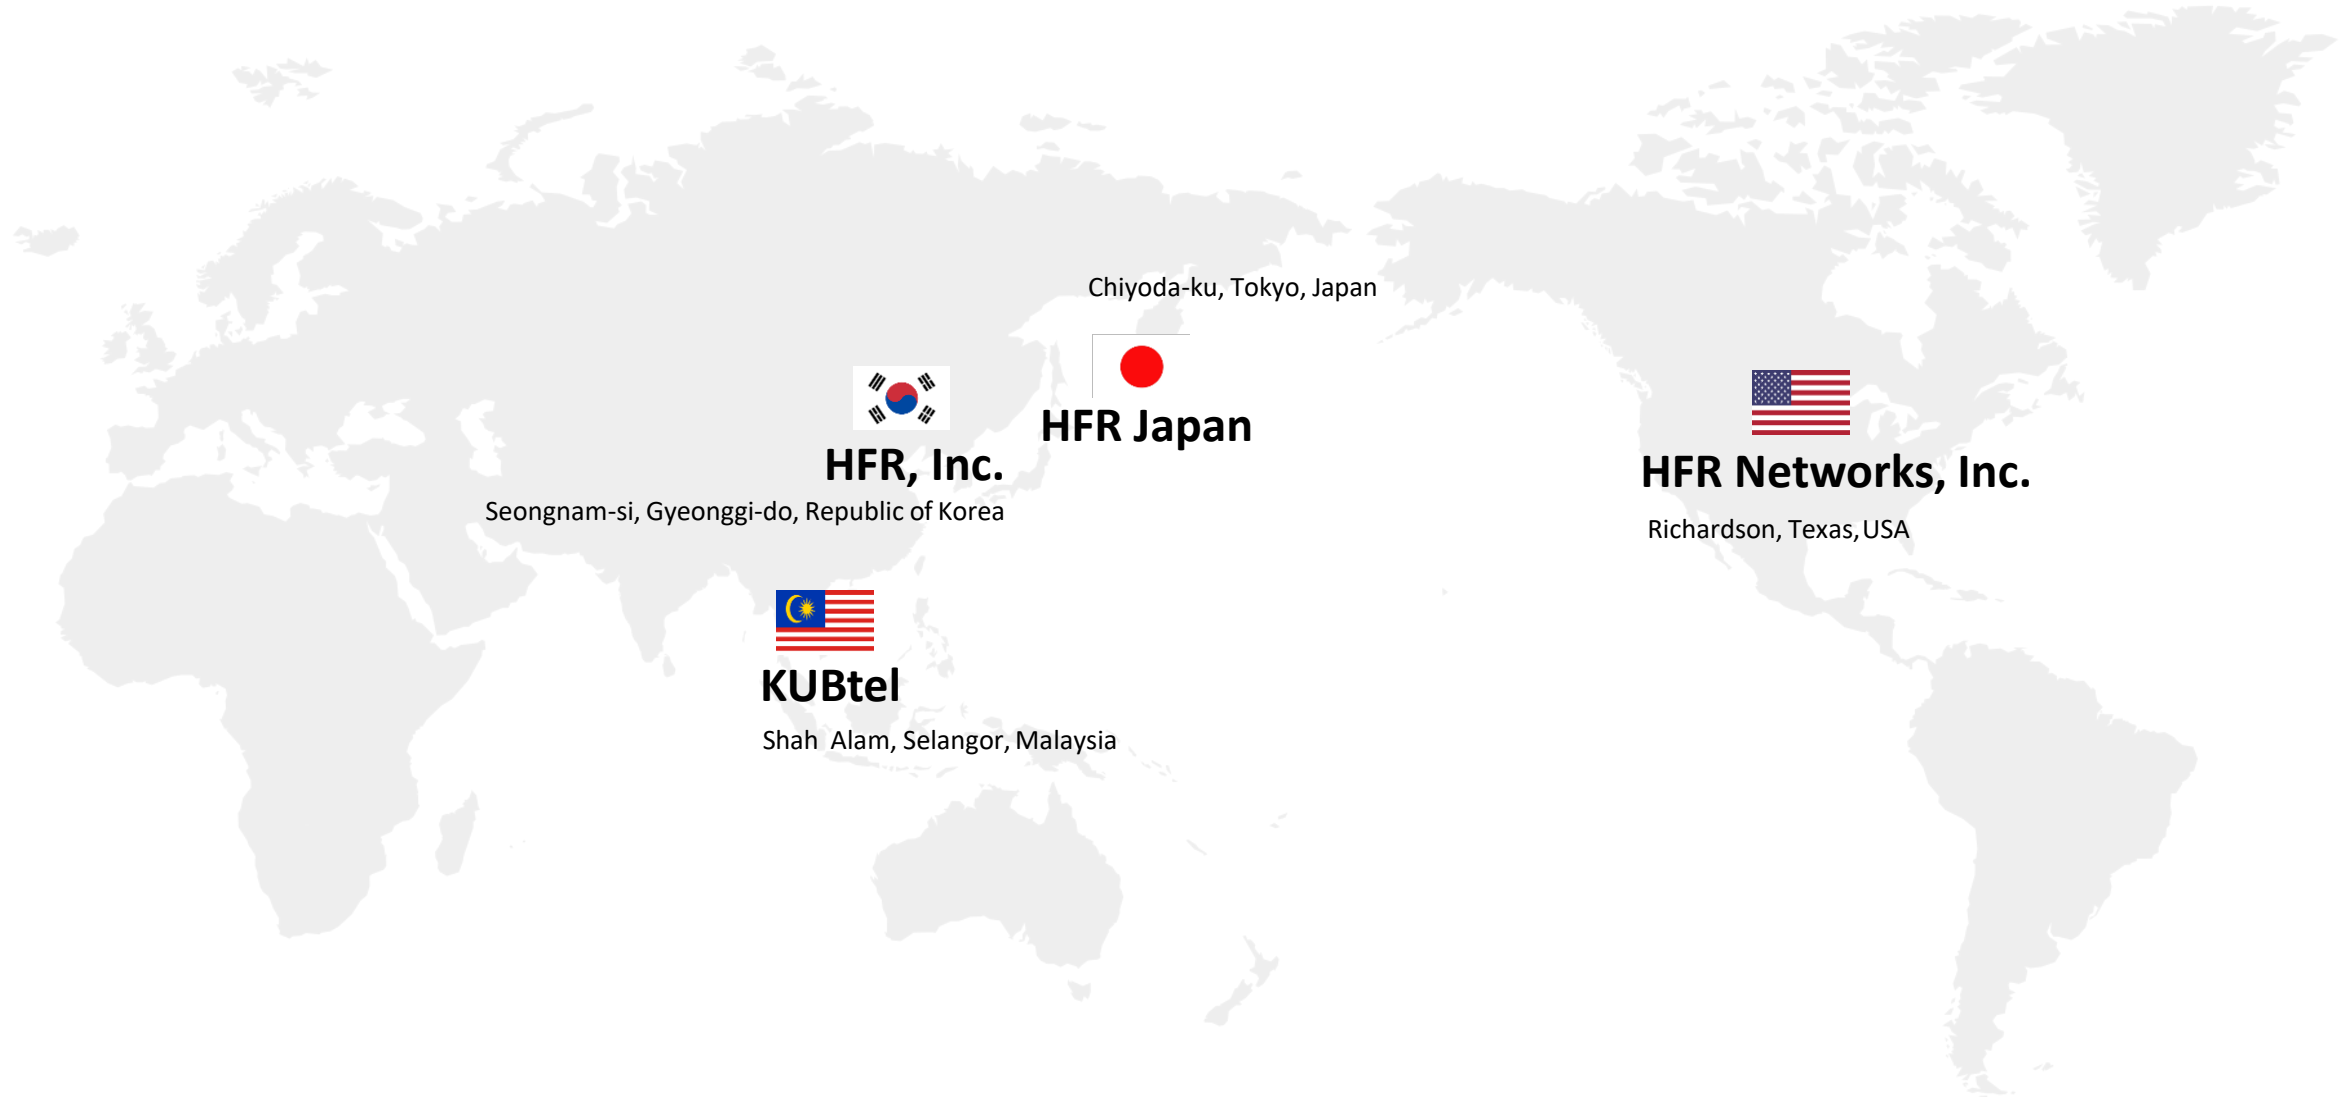

An engineering-focused, collaborative methodology for building and deploying global telecom network infrastructure

## Business Place

---

한국 내 본사를 포함하여 미국, 일본, 말레이시아에 해외 법인/지사를 두고 글로벌 비즈니스를 위한 역량을 키워가고 있습니다.

## HFR Product Portfolio

# flexiHaul Solution

Converged Transport of All Mobile Traffic to save Operator's CAPEX/OPEX for 4G & 5G Services

- Provides fronthaul/midhaul for 4G (CPRI) and 5G (F1, eCPRI) traffic
- Available as a WDM or packet-based solution
- RAN vendor-neutral

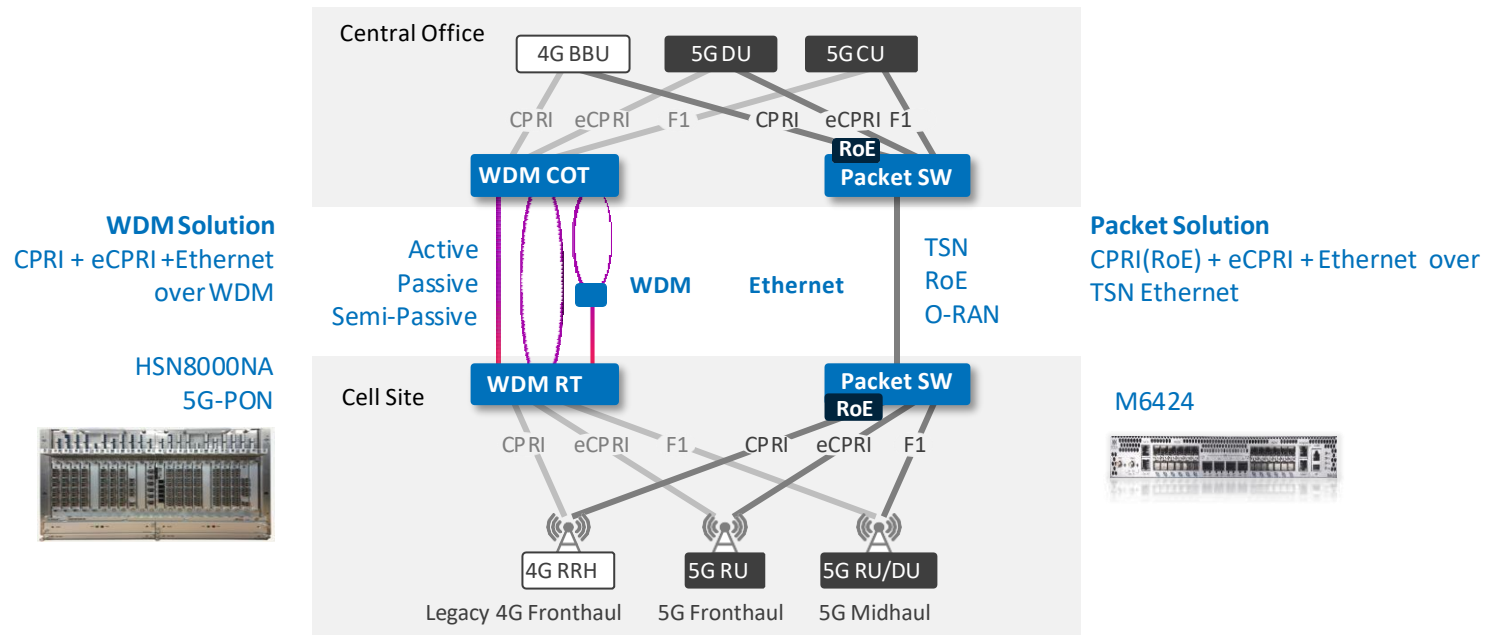

## WDM Fronthaul Solution

- Optimize services over limited fiber assets for better economics and improved time to market
- Cost-effective, highly flexible family of scalable transport units that delivers a broad range of xHaul (fronthaul, midhaul and backhaul) services.
- Configurable as point-to-point, linear chain, point-to-multipoint, or ring network topologies and also Active to Active, Active to Passive configuration.
- WDM xHaul platform has an integrated transponder, controller and WDM filter. It offers a variety of performance, quality measurement and monitoring.

## Packet Fronthaul Solution

- TSN switch optimized for xHaul supports CPRI, eCPRI and Ethernet
- The network migrating into Packet Radio Access Network for the future Function Split and software centric Radio Access Network.
- HFR's packet-based fronthaul platform supports 4G / 5G centralized and cloud-based RAN architectures by leveraging next-generation Packet RAN access technology.
- Time-Sensitive Networking (TSN) aggregation and transport switch supports interfaces for CPRI, eCPRI and Ethernet services.

With HFR's solution, 5G overlay is not needed on existing 4G transport networks, helping to reduce total costs and speed time to market of lucrative new 5G services

# Mobile Transport

Converged Transport of All Mobile Traffic to save Operator s CAPEX/OPEX for 4G & 5G Services

- LTE&5G simultaneous service through the existing 4G RRH using LTE spectrum
- Copying and forwarding the data to the radio unit to increase the number of radio units being managed by a single DU.

## FlexiGate

- **LTE&5G simultaneous service** through the existing 4G RRH using LTE spectrum
  - Reducing Capex/Opex since a service provider does not need new 5G NR
  - In the initial phase of deploying new service, they can deploy 5G NR of 100M/200M in hotspots
  - Supporting multi vendors' DUs and RRHs

## Fronthaul Mux based on O-RAN interface

- Copying and forwarding the data to the radio unit to increase the number of radio units being managed by a single DU.
- If no FHM is being used, each RU is accommodated as one cell, but when using a FHM, a maximum of 12 RUs can be accommodated as one cell in a DU. At the launch of 5G services, this meant that more RUs could be accommodated in a single CU when forming a service area in a location having low required radio capacity.

Multiple Cell Scenario

# Broadband Access Solution

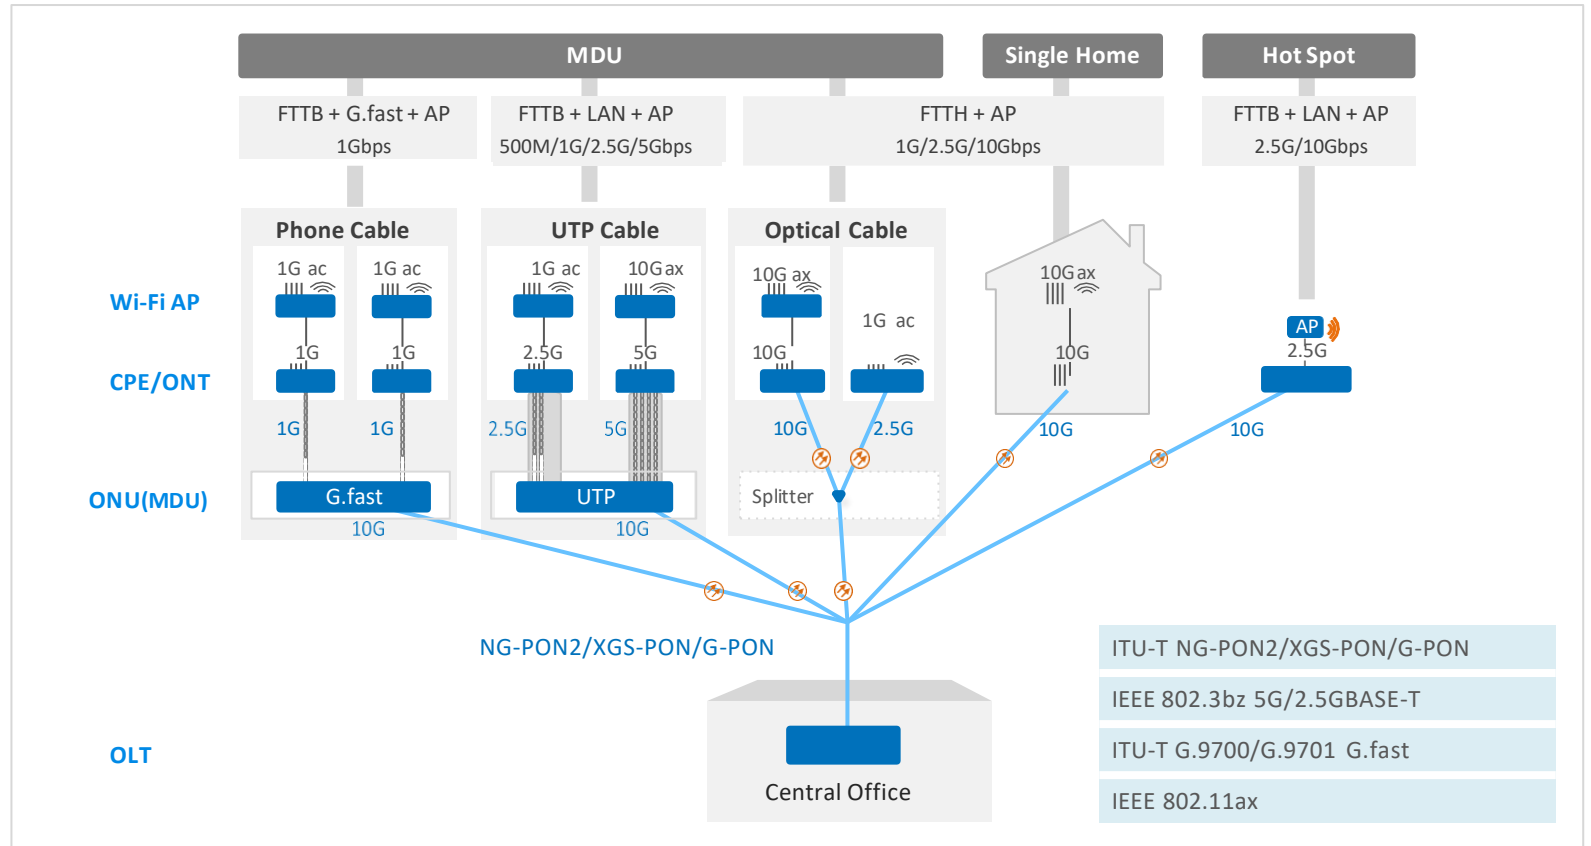

1G/2.5G/5G/10G to the Home

## 10 Gigabit Internet Solution: XGS-PON and 10G-EPON

## Wi-Fi 6/6E Access Point

- XGS-PON lead fiber access technology for delivering residential, business, and mobile backhaul services.
- HFR to provide 10 Gigabit Internet service (2.5G/5G/10G to the home) for any residential environment
- Wired terminals up to 10G service and wireless terminals for 4.8G services
- End-to-end 10 Gigabit Internet solutions from OLT to ONU, ONT, CPE, and Wi-Fi access points.
- Multi-Gigabit Ethernet and G.fast provide the optimal solution for MDU/MTU services.

HFR is currently providing all three broadband solutions- FTTH, FTTB + LAN and FTTB + G.fast, allowing telecom operators to deliver ultra-high speed internet (1/2.5/5/10Gbps) to users for any residential environment.

### HFR's Broadband Access Solution

Any Residential Environment

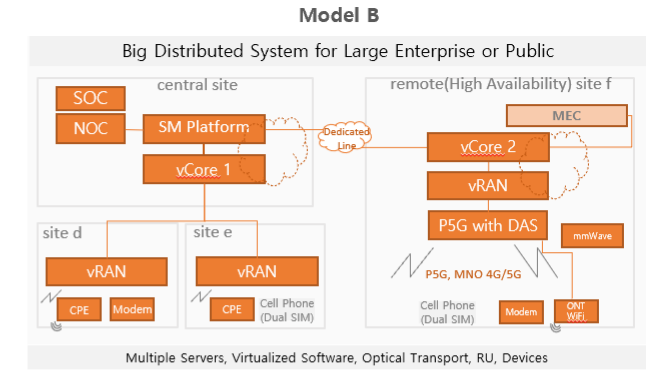

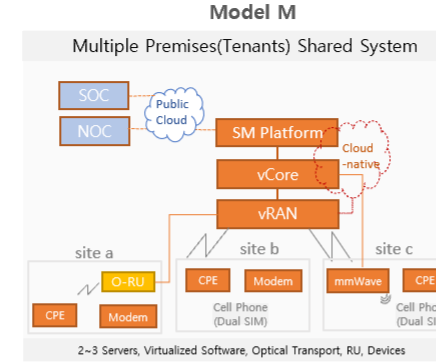

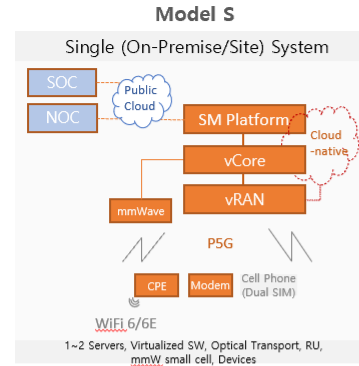

True Turnkey Solution

- Wi-Fi AP: 4.8Gbps
- + CPE/ONT: 1G/2.5G/5G/10Gbps
- + ONU(MDU): UTP 4-Pair/2-Pair
- + OLT: NG-PON2/XGS-PON/10G-EPON/G-PON

# my5G Solution

Our End-to-End Private 5G Solution, my5G includes 5G SA vCore, O-RAN based 5G vRAN and Business Platform.

HFR is transforming into a Private 5G solution provider delivering BSS/OSS, vCore, vRAN and vertical applications for digital transformation in enterprise and industry.
